Notes:

The Edgewood Woodlot is located east of Garner Road and north of a hydro corridor. To the north a fence separates it from homes along Kudlac Street. To the east a paved trail creates a buffer zone separating the woodlot from homes along St Michael Ave. A fence separates the homes along St Michael Ave from the trail

Notes:

The woodlot itself is designated as an environmental protection area (EPA) and contains a number of vernal pools. Red maple and pin oak dominate this mature forest. Some old stumps and young sugar maple suggest that sugar maple may have been logged around 100 years ago and are gradually returning. Additional

Notes:

Overall the forest is in good health with limited human disturbance. Some dumping of grass clippings was noted behind St Michael Ave and a hot tub had been dumped in the woods behind the trail.
