Notes:

Polygon 8 is the area north of the dog park and west of the band shell. It is similar to polygons 7 with the mowed area near the band shell transitioning to an area further west that has been allowed to naturalize. A number of memorial trees exist within the mowed area as well as the area that is being naturalized. I like

Notes:

Ailanthus altissima (Tree of Heaven) is a non-native species which can be highly invasive. It has become abundant in this polygon and its removal should be considered.
